SOCIAL DATA SCIENCE

Wrap Up

Sebastian Barfort

August 19, 2016

University of Copenhagen
Department of Economics

Course Description

The objective of this course is to learn how to analyze, gather and work with modern quantitative social science data.

1. Asking interesting social science questions
2. Data Gathering
3. Visualization
4. Different types of data
5. Causality and Prediction
6. Ethics

- 8-12 normal pages
- Upload project in `pdf`
- Upload code as separate `.R` file.

I'm in my office next week (but write if you want to drop by)

want to learn more?

R

- · R for data science
- · Tidy text mining
- · Machine learning for hackers
- · R Bloggers
- · CopenhagenR meetup

D3

- · Interactive data visualization for the web

Statistical learning

- · Coursera
- · DTU
